FOR IMMEDIATE RELEASE

RV Education 101 simplifies RV ownership by releasing RV DVD Value Packs

Fayetteville, NC – February, 2006 -- RV Education 101, founded in 1999 by Mark and Dawn Polk, just made it easier for Recreation Vehicle (RV) consumers to learn about RVs with the release of three RV DVD Value Packs. Mark Polk, the producer and host said, "We took our individual Travel Trailer and Motorhome DVD titles and put them in sets with other titles that apply." There are three to choose from and each value pack includes four RV training DVD's, which equates to almost three hours of one-on-one RV instruction. These DVD value packs provide a thorough understanding of how a Recreation Vehicle works and can be viewed as often as needed. Some of the topics included are; operating, maintaining, winterizing, storing, towing, safety cautions and warnings, and the RV essential items needed for the complete RV experience. Dawn Polk added, "Not only does this eliminate the guess work as to which titles should go together, but we save the RV consumer a significant amount of money with the box set discounts. All DVD titles are still available individually too."

Polk, who is also the author of the newly released book "*The RV Book*" offers a free monthly RV newsletter and numerous free informational RV articles and tips on his two websites www.rveducation101.com and www.rvuniversity.com. He said, "Buying an RV is a major investment and a new RVer can be overwhelmed when just starting out, nothing will ruin a trip or a vacation quicker than not understanding how to properly use and maintain your RV. This is where the RV training videos fill such a valuable need." One new RVer stated "When we got our first RV we did everything we could to take notes when the dealer gave us our RV walk-thru, but with the gas system, water heater, A/C, water and waste tanks, dumping etc....our heads were in a whirl! We thought we had taken good notes, but, of course there were things we heard differently. The line of RV Education 101 videos/DVD's are a must have for every RV'er!"

Mark Polk is a retired Army Chief Warrant Officer Three, specializing in wheeled and track vehicle fleet maintenance operations. His 30 plus years in maintenance include an extensive RV background working in RV service, sales and management. He writes monthly RV articles for Camping World, KOA and RV Travel. Mark is well respected in the RV industry, having top RV companies support and endorse RV Education 101's efforts for RV consumer training awareness. KOA's assistant vice president of marketing, Shannon Scheiwiller who works closely with RV Education 101 stated "RV Education 101 is the industry's expert voice of RVing, safety and machine expertise." She further states, "RVers are hungry for two things - vacation ideas and machine information."

Polk said, "Our goal at RV Education 101 is simple; to help RVer's until they are comfortable operating and using their RV and to make all of their RV experiences

safe, fun and stress free." For more information on the RV DVD Value Packs, or RV Education 101 RV products, go to www.rveducation101.com
