FOR IMMEDIATE RELEASE

RV Education 101 Releases a New E-book: How to Buy an RV, Before you Buy it

Fayetteville, NC – December, 2005 -- RV Education 101, founded in 1999, announced an addition to their e-book titles which will now total eight:

How to Buy an RV, Before you Buy it
The Original Checklists for RVers
The Three Primary Systems of an RV
Dinghy Towing
Pop-Up Basics 101
What to Know Before You Tow a Trailer
Preventive Maintenance Checks for Motor Homes
A Collection of RV Tips

Mark Polk, the author of *the e-books* said “Buying an RV is a major investment and a new RVer can be overwhelmed when just starting out. There are many different types of RVs and many different price ranges. I can help you have a better understanding of the whole process”

Polk goes on to say “Purchasing an RV is a major investment, similar to buying a house. It is after all your home away from home and we need to slowww down the buying process and make some educated, well informed decisions. When we purchase an RV it's easy to overlook something, forget to check something, or possibly not be properly informed about something. Whatever the case may be you don't realize it until after you buy it and then it's too late. If you are considering purchasing an RV this e-book was written for you.”

Mark Polk, an ex-RV sales manager, will walk you through the entire process of buying an RV, before you buy it. This e-book is loaded with valuable information and teaches you how avoid making costly mistakes. Polk covers everything from knowing what your needs are to signing on the dotted line. Learn which type of RV is right for you, how to select the right RV dealer, tips on negotiating the price, finance terms and interest rates, extended service plans and much more. When you're finally ready to go shopping for the perfect RV there is a valuable buyer's checklist included so nothing is overlooked. Take control of your RV buying experience.

“This is the best \$12.95 you'll ever spend when you realize how much it saved you.” Dawn Polk said “RV owners and soon to be owners will thoroughly understand what a Recreation Vehicle is, how to buy it and once they own it, how to use it.”
