FOR IMMEDIATE RELEASE

The Nations Number One Producer of RV Instructional Videos Releases New RV Campground DVD An Enticing Lure to the Great Outdoors

With an RV, where to go and what to do when you get there can be confusing until you have a few RV trips under your belt. Should you make reservations before leaving on a trip? How do you register when you arrive at the campground? What kind of campsite should you request? What's the right camping club for you? What does campground etiquette mean? There is a lot to learn about public and private campgrounds, and the more you know, the better your camping experience will be.

Fayetteville, NC - October 2006 -- RV Education 101, the most highly regarded RV training video and information company, founded in 1999 by Mark and Dawn Polk, takes a look into the "how to's" of camping in a Recreation Vehicle (RV). RV Education 101 announces the release of a new DVD titled "RV Campground Basics" designed to introduce RVers to the wonderful world of getting the most enjoyment out of camping in their RV.

Dawn Polk stated, "One day we realized that we were so focused on teaching RVers how to use and maintain their RV's, but we weren't helping them discover all of the great places they can go in their RV. That was the day we decided the logical thing to do was to produce a DVD on RV Campground Basics."

Mark Polk added, "Traveling by RV makes even more sense when you take into account there are over 16,000 campgrounds, both public and private, for RVers to use in the United States. We also have 390 National Parks that offer over 400 campgrounds with 29,000 campsites, and our 156 national forests offer more than 4,000 campgrounds for us to use. Before you start exploring these public and private campgrounds across America, you need to determine how you plan to use your RV and where you plan to use your RV. This DVD will explain all of your options and much more."

Polk, an avid RVer himself, is also the author of "The RV Book" and producer of eight other RV DVD titles. Polk offers a free monthly RV newsletter and numerous free informational RV articles and tips on his two websites www.rveducation101.com and www.rvuniversity.com. Polk goes on to say, "Buying an RV is a major investment and a new RVer can be overwhelmed when just starting out. This is where our RV Education 101 training videos, books and e-books fill such a valuable need. Our goal at RV Education 101 is simple; to help RVer's, until they are comfortable operating and using their RV and to make all of their RV experiences safe, fun and stress free."
